- Anglicare SEQ
- ATSICHS Brisbane
- Community - HART4000
- IUIH
- Micah Projects
- Mission Australia
- Murri Watch
- The Salvation Army

CHECK OUT
OUR
PROGRESS

*The Know By-Name List helps us to identify every person sleeping rough (on the streets, in parks, tents, cars) or in temporary accommodation in Brisbane, their needs and the support services required.

**The VI-SPDAT is a voluntary screening tool based on people's disclosed information and it is used to provide appropriate housing, healthcare, and community services according to people needs.

*** The Service Utilisation data includes Individuals and Families.

Note: This infographic includes all participants regardless of rough sleeping history.
